

Reis, Inc. Increases its Quarterly Cash Dividend by 11.8% to \$0.19 Per Share

February 15, 2018

NEW YORK, Feb. 15, 2018 (GLOBE NEWSWIRE) -- Reis, Inc. (NASDAQ:REIS) ("Reis" or the "Company"), a leading provider of commercial real estate market information and analytical tools, announced today that on February 14, 2018, its Board of Directors declared a regular quarterly cash dividend of \$0.19 per common share, to be paid on March 14, 2018 to shareholders of record as of the close of business on March 7, 2018. This dividend represents a \$0.02, or 11.8% increase over the prior quarterly dividend.

It is the Company's expectation that it will maintain a program of paying dividends on a quarterly basis; however, the declaration of dividends in the future is subject to the discretion of the Company's Board of Directors, which will evaluate the Company's dividend program from time to time in light of the Company's financial condition, earnings, cash flows, growth prospects, tax situation, restrictions under the Company's credit facility, applicable law and other factors that the Board of Directors deems relevant.

Cautionary Statement Regarding Forward-Looking Statements

This press release may contain certain "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to Reis's or management's outlook or expectations for Reis's business, operations or performance. Forward-looking statements reflect management's judgment based on currently available information and involve a number of risks and uncertainties that could cause actual results to differ from those in the forward-looking statements. Please refer to Reis's annual, quarterly and periodic reports on file with the SEC for a more detailed discussion of various risks that could cause results to differ materially.

About Reis

Reis provides commercial real estate market information and analytical tools to real estate professionals through its Reis Services subsidiary. Reis Services, including its predecessors, was founded in 1980. Reis maintains a proprietary database containing detailed information on commercial properties in metropolitan markets and neighborhoods throughout the U.S. The database contains information on apartment, office, retail, warehouse/distribution, flex/research & development, self storage, seniors housing, student housing and affordable housing properties, and is used by real estate investors, lenders and other professionals to make informed buying, selling and financing decisions. In addition, Reis data is used by debt and equity investors to assess, quantify and manage the risks of default and loss associated with individual mortgages, properties, portfolios and real estate backed securities. Reis currently provides its information services to many of the nation's leading lending institutions, equity investors, brokers and appraisers.

The Company's product portfolio features: *Reis SE*, its flagship delivery platform aimed at larger and mid-sized enterprises; *ReisReports*, aimed at prosumers and smaller enterprises; and *Reis Portfolio CRE*, and other portfolio support products and services, aimed primarily at risk managers and credit administrators at banks and non-bank lending institutions. It is through these products that Reis provides online access to a proprietary database of commercial real estate information and analytical tools designed to facilitate debt and equity transactions as well as ongoing asset and portfolio evaluations. Depending on the product or level of entitlement, users have access to market trends and forecasts at metropolitan and neighborhood levels throughout the U.S. and/or detailed building-specific information such as rents, vacancy rates, lease terms, property sales, new construction listings and property valuation estimates. Reis's products are designed to meet the demand for timely and accurate information to support the decision-making of property owners, developers, builders, banks and non-bank lenders, equity investors and service providers. These real estate professionals require access to timely information on both the performance and pricing of assets, including detailed data on market transactions, supply, absorption, rents and sale prices. This information is critical to all aspects of valuing assets and financing their acquisition, development and construction.
