About Reis

Reis provides commercial real estate ("CRE") market information and analytical tools to real estate professionals. Reis maintains a proprietary database of information on all commercial properties in metropolitan markets and neighborhoods throughout the U.S. This information is used by CRE investors, lenders and other professionals to make informed buying, selling and financing decisions. In addition, Reis data is used by debt and equity investors to assess, quantify and manage the risks of default and loss associated with individual mortgages, properties, portfolios and real estate backed securities. Reis currently provides its information services to many of the nation's leading lending institutions, equity investors, brokers and appraisers.
